CZARA RA draft briefing 12.8.14 v2.docx

Hi Everyone (cc: to Christine),

Here's a draft of the RA briefing based on what we talked about. There's still some finetuning that needs to be done, but hopefully, this gets at the essence of what we all talked about. I added in the goals of the section and talking points to each of the sections to be the take home points. Folks, please comment by tomorrow at 9:30AM.

Christine, FYI, Jayne and I have been working on this with Dave and Alan. Our idea is that we'll have bullet points in the briefing document for background, but will be using the talking points. Please don't share this draft with EPA HQ yet. We're aiming for something by tomorrow morning/noon. We have to fine tune the 1<sup>st</sup> and 3<sup>rd</sup> sections, so I'm going to wait for everyone's comments before sending to Jayne to send to EPA HQ. As we talked about, you can think of there being two parts to the briefing: 1) why Oregon's forestry program isn't sufficient and why that's important environmentally (section 1-3); 2) Ramification of not taking action, CZARA options (Sections 4-7).
